FOR IMMEDIATE RELEASE

Marlow Explorer 66E

Snead Island, Florida – September 7, 2022 (Marlow Yachts Limited, Inc.)

The innovative and enormously successful Marlow Explorer 66E will be on display at the Ft. Lauderdale Boat Show this October. Over the years, our 66E Series continues to be a show stopper and a head turning yacht with exciting innovative features and layout from the Marlow Yachts team. She is built in our own environmentally green award-winning factory in Xiamen, China where our own permanent work force (most with us since our beginning in 1999) construct from raw materials the artistic level of detail found on perhaps 2-3 custom yachts built in the world. Featuring the nimble handling of a much smaller yacht, with performance at sea proven over and over, this 66E excels dockside, far offshore or in a remote cove, providing luxurious, safe and practical surroundings at home on any sea or at any port of call.

The optional Flybridge or Command Bridge has been custom designed for extreme comfort while underway or at rest. Many other options have been designed for entertaining and dining throughout the yacht.

The additional beam increases volume throughout and increases stability at rest and underway. Her fuel tanks at 3000 gallons are by far leading in class, typically double the industry standard. The engine room is very spacious with ease of access to all devices. This vessel is capable as equipped from the factory to undertake voyages in distance and weather that few or none can match. West Palm Beach to Newfoundland non-stop causes no concern for this rugged but elegant passagemaker.

Our advanced manufacturing techniques and over a decade of experience of building Marlow Explorers from 49' to 97' has provided us the ability to continue offering our models that have revolutionized the industry, providing the seaworthiness, comfort and style Marlow owners expect.

Marlow Yachts have become the epitome of quality with the industry's best resale, Iconic in a world of marketing by artistic license.

We look forward to welcoming you at the Ft. Lauderdale Boat Show, Hall of Fame Marina North, slips HOF 311-313-315 on October 26 thru 30, 2022. **Our New Location!**
