FOR IMMEDIATE RELEASE

Marlow Explorer 62E

Snead Island, Florida – September 7, 2022 (Marlow Yachts Limited, Inc.)

Hull #28 of our highly sought after 62E series will showcase as part of our Ft. Lauderdale 2022 Boat Show lineup this Fall.

This Marlow Explorer 62E with her Pearl Blue Hull, gleaming Oyster White Superstructure and Semi Enclosed flybridge is a three-stateroom yacht and features our new Beach Club layout aft. This redesign enlarged the storage areas for on board gear while providing an open and inviting “club atmosphere” with an exceptionally large hydraulically opening transom door that when fully opened acts as a large awning over the expansive swim platform below. The Beach Club offers occupants an open vista from the aft engine room bulkhead to the sky and sea beyond while in anchorages, on mooring or dockside.

The interior of this Marlow has high gloss teak floors which have been hand selected and graded as all products on a Marlow of any size or model.

The additional beam increases volume throughout and increases stability at rest and underway. The engine room is very spacious and houses the Volvo IPS 1350 engines. Offering top speeds of 25+ knots and efficiently cruising at 8-9 knots, she is capable and equipped from the factory to undertake voyages and weather that few or none can match. At speeds in excess of 8 knots she can achieve range of over 2,000 miles.
